Education & Training

•Lovely Professional University *2023 – 2027*
B.Tech in Computer Science and Engineering (CGPA: 8.88/ Till 6th Sem) Jalandhar, India

•AlgoTutor University (Technical Training) *Jan 2026 – Jun 2026*
Specializations: DevOps Engineering, Advanced System Design (HLD/LLD), Competitive Programming Jalandhar, India

Coding Profiles & Achievements

- Solved **1000+ LeetCode problems**, reaching a **1962 peak rating and Knight Badge** across data structures, algorithms, dynamic programming, and graph problems
- **LeetCode Competitive Programming:** Achieved peak global ranks of **265** (Weekly 502), **279** (Weekly 504), and **389** (Weekly 503), consistently placing in the **top 1%** of 30,000+ global participants
- **Winter PEP Track Selection:** Selected into an elite global track as one of the **top 20 out of 10,000+ students at LPU** (**Top 0.2%**), passing rigorous rounds of live algorithmic coding, system architecture defense, and enterprise DevOps testing
- **HackerRank Excellence:** Earned a **5-Star Gold Badge** in Problem Solving, Java, and SQL, reflecting strong foundational coding and database skills

Technical Skills

- **Cloud & Infrastructure**: AWS EC2, Cloud Computing, Terraform, Linux, Infrastructure Automation
- **Containers & Orchestration**: Docker, Docker Compose, Kubernetes, Horizontal Pod Autoscaling (HPA)
- **CI/CD & Monitoring**: Jenkins, Git, GitHub Actions, Prometheus, Grafana, cAdvisor
- **Programming & Scripting**: Java, Python, SQL, YAML
- **Core Concepts**: Computer Networks, Operating Systems, DBMS, System Design, Microservices

Projects

•Cloud-Native DevOps Automation & Observability Platform *May 2026*
AWS EC2 | Terraform | Jenkins | Docker | Kubernetes | Prometheus | Grafana **GitHub Repository**

- **Improved deployment efficiency by 40% through automated software delivery workflows** by engineering an end-to-end **CI/CD pipeline** using **Jenkins, Docker, and AWS EC2** to enable consistent and reliable releases
- **Achieved 99.9% application availability under simulated production workloads** by deploying **Kubernetes-based infrastructure** with rolling updates, horizontal pod autoscaling (HPA), and self-healing container orchestration
- **Reduced infrastructure issue detection time by 25% and improved provisioning consistency** by implementing **Terraform Infrastructure-as-Code (IaC)** with centralized observability using **Prometheus and Grafana**

•ValuStride: Containerized Microservices Deployment Platform *May 2026*
Docker | Kubernetes | Redis | FastAPI | Microservices | Linux **GitHub Repository**

- **Improved application portability and deployment consistency across multiple services** by containerizing a microservice ecosystem using **Docker-Compose** and isolated service environments
- **Enhanced scalability and fault tolerance of distributed application components** by orchestrating services with **Kubernetes**, enabling independent scaling and efficient resource utilization
- **Reduced backend computation overhead by 90% achieving sub-1.5ms response latency** by integrating a **Redis caching layer** within the cloud-native microservices architecture

•Candidate Intelligence Engine: AI-Assisted Application Delivery Platform *2026*
AI-Assisted Development | FastAPI | Python | Automation | CI/CD Ready Architecture **GitHub Repository**

- **Accelerated application development and delivery within a company hackathon environment** by leveraging **AI-assisted engineering workflows** to rapidly design, validate, and integrate production-style software components
- **Improved application maintainability and deployment readiness** by structuring modular **FastAPI services** with separated extraction, processing, validation, and API layers following cloud-native principles
- **Enhanced software reliability through systematic validation workflows** by performing debugging, integration testing, and refinement of AI-generated components

Certifications

- **Data Platform Foundation Associate** ORACLE UNIVERSITY
- **AI Agent Studio** ORACLE UNIVERSITY
- **AI Foundation Associate** ORACLE UNIVERSITY

Positions of Responsibility

- **Class Representative** | Section: 423YH Jan 2026 – Jun 2026
- **Teaching Assistant** | CSE357 (Combinatorial Studies) Jan 2026 – Jun 2026
- **Teaching Assistant** | PEA305 (Analytical Skills) Jan 2025 – Jun 2025
